Dear Friend,

The Annual French Creek Iron Tour will be held on **Sunday, June 9, 2019** this year at the Kimberton Fire Company Fairgrounds in Phoenixville.

Each year approximately 1,000 riders come from near and far to enjoy this special event. The Iron Tour acquaints cycling enthusiasts with our protected lands while raising critical funding for open space preservation.

Course lengths are designed for all levels of cyclists, with 8 courses between a family-friendly 11-mile and a challenging 100-mile. Bringing a new brand of excitement to the Iron Tour this year will be our **Inaugural Gravel Grinder**. This leg burning, chest pounding ride will take riders through some of the most beautiful and challenging terrain the French and Pickering Creek watersheds have to offer.

The Iron Tour is renowned for its terrific volunteers. The fairgrounds and surrounding area will be buzzing with activity on June 9, as teams of volunteers prepare food, provide service to riders, and stock the rest stops along the route.

In 2018, the Iron Tour received excellent coverage in printed and online news publications. The marketing exposure associated with the Iron Tour is a great opportunity for any company.

Please show your support by providing a donation for a sponsorship. French & Pickering Creeks Conservation Trust is a not-for-profit organization, so your contribution is tax-deductible. Our EIN number is: 23-6429095. All proceeds benefit our mission to preserve, steward, and connect people to the land in northern Chester County.

If you have any questions, please email me at jlipkowitz@frenchandpickering.org.

Thank you again.

Sincerely,

Julia Lipkowitz
